# OUR GOAL

Getting young  
people interested in  
science

## The Website

# What Are We Made Of?

Welcome on this adventure on the quest of finding the answer to the question:  
"What are we made of?"

The levels will take you through **journey into the history of subatomic physics.**

Are you ready to embark on this exciting adventure?

Start Game

# How are we going to achieve that?

# WHY A GAME?

**01**

**Interactive**

**02**

**Entertaining**

**03**

**Accessible**

**04**

**Educational**

# THE GAME

## Level 1 Test

1. What did Rutherford use to hit the foil of gold?

- ☒ Alpha particles
- ☐ Beta particles
- ☐ Gamma particles

Submit

# THE GAME

## Quiz Result

**Your chances of winning a Nobel Prize in Physics is 4.32%**

Astrophysics: 10.11%

Nuclear and particle physics: 47.61%

Quantum mechanics: 13.09%

Optics: 8.92%

Material science: 20.23%

Experimentalist: 67%

Theorist: 33%

# THE GAME

## Congratulations!

You have completed the journey into the history of subatomic physics!

Thank you for playing the game and exploring the mysteries of the universe with us.

[Play Again](#)

## NEXT STEPS...

- Improve the design

- Add more scientific fields

- Add more levels

- Add a version for kids and for college students

THANK  
YOU!
